-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-9, drawn to a data processing method for cost/price determination, classified in class 705, subclass 26, 400 and 418.
- II. Claims 10-13, drawn to a method of Demultiplexing single input channel to plural output channels with order of selection, classified in class 370, subclass 542.
- III. Claims 14-17, drawn to an electrical Audio signal processing system and devices/broadcast or multiplex stereo, classified in class 381, subclass 2.
- IV. Claims 18-25, drawn to a process for changing system settings or operational modes (i.e., preview mode to purchasing mode) in a digital data processing system after the system has been set, classified in class 713, subclass 168, 193 and 200.

The inventions are distinct, each from the other because of the following reasons:

Inventions Group I, II, III and IV are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because

Group I has separate utility such as a business method of determining price/cost limit of an item such as purchasing an item over the internet through E-commerce.

Group II has separate utility such as a method of extracting received multiplex stream according to a predetermined scheme such as priority of receiving of a media stream based on bandwidth availability.

Group III has separate utility such as encoding/decoding audio signal based on a predetermined encoding/decoding scheme, i.e., ATRAC such as audio streaming over the Internet.

Group IV has separate utility such as protecting media content for illegal use while offering user an opportunity to preview music/songs, i.e., pay-per-play/on-demand.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one

Art Unit: 2611

or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hai Tran whose telephone number is (571) 272-7305. The examiner can normally be reached on M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christopher C. Grant can be reached on (571) 272-7294. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
